

## EIZO-Sponsored Seminars Supporting Early Detection of Breast Cancer

EIZO sponsors seminars worldwide that are designed for radiologists, surgeons, and pathologists including hands-on screening courses that provide training on all aspects of breast imaging using the multi-modality approach: mammography, breast ultrasound, tomosynthesis, and breast MRI. EIZO supports these courses by giving medical professionals a chance to experience EIZO's line of multi-modality (8 and 6 megapixel) and digital mammography monitors in an advanced learning environment.

### Fujifilm 2nd Mammography Workshops (2gie Warsztaty Mammograficzne Fujifilm) **NEW**
